HTML to PDF Converter - Excel Library - ASP.NET Charts - RTF to PDF Converter
PDF Merge and Split - PDF Security - PDF Viewers - PDF to Text - Images Extractor

Winnovative HTML to PDF Converter

Winnovative **HTML to PDF Converter for .NET** is a library that can be integrated in ASP.NET and MVC web sites, Azure Cloud Services, Windows Forms and WPF desktop applications to convert URLs, HTML strings and streams to PDF, to SVG or to images.

The converter offers full support for HTML tags, HTML5 with CSS3, SVG and Web Fonts, page breaks control, media type rules, repeating HTML table header and footer, hierarchical bookmarks, tables of contents, fillable PDF forms, HTML with page numbering in header and footer.

Winnovative HTML to PDF Converter does not need installation and does not depend on any third party tools, works both in 32-bit and 64-bit environments and xcopy deployment on the server is supported.

The library was designed and tested to work reliably in multithreaded environments and in high traffic websites.

We offer full C# and VB.NET samples for ASP.NET, MVC, Windows Forms and Azure Cloud Services in the downloaded archive both for .NET 2.0 and .NET 4.0. The licensing model is simple and royalties free.

## Winnovative Toolkit for .NET

Winnovative PDF Tools Demo

The Winnovative tools can be purchased individually or in collections named toolkits. When you purchase a toolkit you get a big discount compared to purchasing each tool separately. There are three types of toolkits: **Winnovative Toolkit Total for .NET** is the collection of all our tools for generating PDF documents, Excel documents and Web Charts. The Toolkit Total comprises both the tools from **Winnovative PDF Toolkit PRO** and from **Winnovative Reporting Toolkit**.

Winnovative PDF Toolkit PRO for .NET comprises the HTML to PDF Converter, RTF to PDF Converter, PDF Viewers for ASP.NET and Windows Forms, PDF Security, PDF Merge and PDF Split libraries, PDF to Text Converter, PDF to Image Converter and PDF Images Extractor. With these tools you can easily create great looking PDF documents with complex formatting.

- **HTML to PDF Converter** - converts any existing HTML document to PDF
- **Word to PDF Converter** - converts Word documents to PDF
- **Excel to PDF Converter** - converts Excel documents to PDF
- **RTF to PDF Converter** - converts Rich Text Format documents to PDF
- **PDF to Text Converter** - can extract text from existing PDF documents
- **PDF to Image Converter** - can convert PDF pages to images
- **PDF to HTML Converter** - can convert PDF pages to HTML documents
- **PDF Print** - can silently print PDF documents
- **PDF Security** - can password protect and set permissions on existing PDF documents
- **PDF Merge** - can merge multiple PDF documents into a single PDF document
- **PDF Split** - can split a PDF document into a multiple PDF documents
- **PDF Images Extractor** - can extract images from existing PDF documents
- **PDF Viewer for ASP.NET** - displays PDF documents within ASP.NET pages
- **PDF Viewer for WinForms and WPF** - displays PDF documents in Desktop applications

See Detailed PDF Tools Features.

Winnovative Reporting Toolkit for .NET comprises the HTML to PDF Converter library for .NET, the Excel library for .NET and the WebChart control for ASP.NET. With these tools you can easily create great looking PDF and Excel reports with charts and complex formatting.

A typical usage scenario of this powerful toolkit is to design your report as an ASP.NET web page containing WebChart controls and then to convert this web page to PDF using the HTML to PDF Converter. The Excel Library also allows the creation of Excel documents containing various types of charts.

- **HTML to PDF Converter** - converts any existing HTML document to PDF
- **Word to PDF Converter** - converts any existing Word document to PDF
- **Excel to PDF Converter** - converts any existing Excel document to PDF
- **Excel Library for .NET** - can produce Excel documents or edit existing documents
- **WebChart Control for ASP.NET** - displays various types of charts within ASP.NET pages

See Detailed Reporting Tools Features.

Winnovative HTML to PDF Converter for Other Platforms

Winnovative HTML to PDF Converter was extended to offer the best experience on other platforms not only for the .NET platform. Currently we have HTML to PDF Converter such solutions for Java, Microsoft Azure, WinRT and Windows Phone, Xamarin, Mono and .NET Core. While the library for .NET does not depend on any external services or programs the solutions for these platforms require the installation of a HTML to PDF server which was built on the library for .NET to offer an API similar to .NET library.

Winnovative HTML to PDF Converter for Java

Winnovative HTML to PDF Converter for Java brings the power of Winnovative HTML to PDF Conversion technology and all its outstanding features to Java platform. The library can be used to convert HTML to PDF, HTML to raster images or HTML to SVG vector image in your Java applications. All the features from .NET library are also available in Java library.

Winnovative HTML to PDF Converter for Azure

Winnovative HTML to Converter for Azure was developed for Azure Websites which have to run under a restricted environment. The general library for .NET can still be used directly in web roles and worker roles of Azure Cloud Services and in applications running on Azure Virtual Machines but it cannot be used in Azure Websites directly because of the restrictions imposed by Azure App Services environment.

Winnovative HTML to PDF Converter for WinRT and Windows Phone

Winnovative HTML to Converter for WinRT and Windows Phone is a portable .NET library that can be used in Windows Store Applications for Windows and for Windows Phone. The package you can download from our website contains demo applications for these platforms.

Winnovative HTML to PDF Converter for Xamarin

Winnovative PDF Tools Demo Converter for Xamarin allows you develop applications for iOS, Mac OS, Android and Windows using C# as development language. A large part of the code you write for Xamarin platform can be reused to produce native application for multiple platforms. The package you can download from our website contains demo applications for iOS, Android and Mac OS.

Winnovative HTML to PDF Converter for Mono

Winnovative HTML to Converter for Mono allows you develop applications for various platforms using C# as development language. The Mono platform can be used to create applications for Mac OS, Linux and Windows and is a quite popular platform since many years ago.

Winnovative HTML to PDF Converter for .NET Core

Winnovative HTML to Converter for .NET Core allows you develop applications for various platforms using C# as development language. The .NET Core platform from Microsoft can be used to create applications for Windows, Linux, OS X and FreeBSD.

Winnovative Free HTML to PDF Tools

Winnovative Free HTML to PDF Tools comprises a Free HTML to PDF Online Service which you can use to convert web pages to PDF using a solution hosted on our server and a Free HTML to PDF Desktop Application that you can download on your computer to convert HTML documents, Web Pages and HTML strings to PDF.

- **Free Online HTML to PDF Service** - convert HTML documents and web page to PDF online using a service based on Winnovative HTML to PDF Converter library for .NET and hosted on our server
- **Free HTML to PDF Desktop Application** - download on your computer a .NET desktop application based on Winnovative HTML to PDF Converter library for .NET to convert HTML documents, web pages and HTML strings to PDF or to raster images without using any online service. The converter has advanced support for HTML5, CSS3, SVG, JavaScript and Web Fonts
